**REFLECTIONS FROM THE VICE CHAIRMAN**

The Yard Sale was humming outside. The Pancake Breakfast cooks were cooking as fast as they could inside. The interior of the Center was awash with people milling about, buying and selling. There was not an inch of flat surface that wasn't covered. I learned that the day before \$1000 worth of 'stuff' had already been sold so I cannot imagine where all that stuff had been. The atmosphere was jovial, lighthearted, with everyone having a good time with their new treasures.

Volunteers were everywhere. Some had been there since 7 a.m. the previous morning and would be there until it closed. Then, of course, there is the wrap-up which is the least fun of all, but necessary to return our beautiful Center to its original look in readiness for the week ahead and the myriad of activities always planned.

As a newbie to the Center I am constantly struck by the amazing volunteers who give their time over and over. I cannot attempt to name them all but today I saw many familiar faces who work on almost every fundraising project we do, and I saw some faces that were new to me who may have decided it was time to help out. It is these new faces we need more and more of. It is so rewarding to get involved and work with one another to make a success out of this fine Center.

Torrey and I moved to Wells in October of 2018 from Houlton, ME - six hours north. I was part of the founding team to create a senior center there and it opened two years earlier. When we moved here, I was pleasantly surprised to see such an active organization already in place for I value such a presence in any community. Perhaps because of my experience I was asked to serve on the Board and am happy to be doing that now. But, you do not need to commit to a Board. Just let us know where you want to serve and we can plug you in. It is great fun and you meet some of the darndest people. ~ Jennifer Sylvester

**Yard Sale raised \$2,900**

This is a little story about four people named **Everybody**, **Somebody**, **Anybody**, and **Nobody**.  
 There was an important job to be done and **Everybody** was sure that **Somebody** would do it.  
**Anybody** could have done it, but **Nobody** did it.  
**Somebody** got angry about that because it was **Everybody's** job.  
**Everybody** thought that **Anybody** could do it, but **Nobody** realized that **Everybody** wouldn't do it.  
 It ended up that **Everybody** blamed **Somebody** when **Nobody** did what **Anybody** could have done!!!
